

HEALTH, SAFETY, ENVIRONMENT, ENERGY QUALITY AND PRODUCT SAFETY POLICY

Indorama Ventures Corlu PET Sanayi A.Ş (IVC) is committed to manage quality, product safety, all its activities and operations in a responsible manner that protects the health and safety of its employees and minimizes its energy requirement and any adverse impact on the environment.

We believe that all injuries, incidents and health hazards can be prevented.

To accomplish this we will with IVC colleagues:

- Carry out Hazard Identification and Risk Assessment and Environmental Aspect Analysis to minimize risks in our daily operations.
- Reduce or control the production, emission or discharge of any kind of waste or pollutant.
- Ensure that HSE protection and energy efficiency is equally important as other business considerations in decision making process.
- Providing the trainings needed by the employees and ensuring that natural resources are used in the most efficient way with the least waste by raising their motivation and awareness. Provide the appropriate environment and conditions to ensure and support an energy efficient working culture.
- **Strictly comply with national and international laws, regulations and standards.**
- **Spread the food safety culture to all levels and continuously improve it by working with trained and conscious personnel, where employees at all levels participate in management and adopt continuous and non-formal education.**
- Monitor and report HSE and energy performance internally on a routine basis.
- Provide the necessary information and resources to support this policy.
- Strive for continuous improvement in our HSE, energy performance, energy management system and measure this by setting objectives and targets consistent with the aims of this policy.
- Support purchasing and design of safe, environmentally friendly and energy efficient products and services to improve HSE and energy performance.

Indorama Ventures Çorlu PET Sanayi A.Ş (IVC) is committed to deliver consistent quality and safe products and service levels for every market segment of our business, providing responsible, innovative, practical and sustainable solutions to our customers.

We strive to implement assurance procedures to facilitate complete customer confidence in quality and product safety. Our products are designed to meet stringent international specifications and regulations including regulations relating to restricted and hazardous substances. Our qualified technical team is available to offer guidance and service to our suppliers, customers, and business partners. As a priority we take responsibilities for health and safety very seriously and have dedicated programs in place at every site. In addition, we take all reasonable measures to avoid contamination of hazardous and restricted substances in our production and supply and we are constantly working to meet the evolving environmental demands of global industry to continue to be a responsible partner.

Our own standards are also asked upon to our suppliers. As a global company, IVC procures raw materials and components on a global basis leveraging the economies and efficiencies of scale. It is our policy to procure our raw material in such way that balances economic, social, and environmental considerations.

In our everyday work, each IVC employee is committed to sustainable operational excellence, to deliver quality and safe products and services as per customer needs. Through self-examination, we will continuously improve performance which meets or exceeds customer expectations.
